

MARYLAND FLETCHER FOOTBALL CLUB

ABN 30 301 037 868

SMOKE FREE POLICY

SMOKE FREE POLICY

1. SMOKE FREE POLICY STATEMENT

Maryland Fletcher Football Club recognises that:

- Environmental (second-hand) tobacco smoke is a health hazard and non-smokers should be protected from it.
- Role modelling can have a significant impact upon the junior members of the Club.
- Smoke free areas make smoking less visible and less socially acceptable.
- Smoke free areas support smokers who are trying to quit as well as reduce their overall cigarette consumption.
- Outdoor smoke free areas help to reduce the amount of cigarette butt litter (reducing clean-up costs, fire risk and children's health risk due to swallowing discarded butts); and
- Smoke-free environments are advantageous in attracting new members as well as positively promoting the Club in the community.

NSW legislation ([Smoke-free Environment Act 2000](#)) also bans smoking in spectator areas for the duration of the sporting activity at:

- Public sports grounds.
- Local council playing fields; and
- Major sporting facilities.

Accordingly, the following policy shall apply to all members, administrators, officials, coaches, players, spectators, visitors, and other volunteers and/or staff of the Club.

2. GENERAL

- Cigarettes and other tobacco products will not be sold, including from vending machines, at any time at or by the Club.
- Coaches, players, officials, and volunteers will refrain from smoking while involved in an official capacity for the club, on and off the field; and
- No images of club volunteers, members, officials, coaches, and players smoking at club-related activities are to be placed on social media.

3. SMOKE FREE AREAS

Maryland Fletcher Football Club requires the following areas of the Club's facilities and sporting ground to be smoke free:

- All indoor areas
- All outdoor playing/training areas
- All spectator areas (standing and seated, covered, and uncovered)
- All canteen, catering and eating and drinking areas.

Smoke-free areas will be signed (where possible) and promoted in Club materials. A designated smoking-permitted area is in the car park area.

4. FUNCTIONS

- Club functions, including social and fundraising events and meetings, held at club facilities are to be smoke free.
- Club functions, including social and fundraising events and meetings, held away from Club facilities are to be smoke free wherever possible.

- If provided, smokers may only smoke at outdoor designated smoking areas and are to dispose of cigarette butts safely before entering facilities; and
- Invitations and advertising for functions, meetings and events will be promoted as smoke free.

5. NON-COMPLIANCE

All Club Committee members will enforce the smoke free policy and any non-compliance will be handled according to the following process:

- Explanation of the Club policy and the NSW tobacco laws to the person or persons concerned, including identification of the areas in which smoking is permitted.
- Continued non-compliance with the policy should be handled by at least two Committee members who will use their discretion as to the action taken, which may include asking the person or persons to leave the Club facilities or function.

6. POLICY PROMOTION

The Club will promote the smoke free policy regularly by:

- Putting a copy of the policy in club newsletters and printed member/player information and on the website.
- Promoting positive smoke free messages through the club's social media.
- Displaying a copy of the policy at the Club facilities.
- Periodic announcements to members at functions; and
- Placing non-smoking signage in prominent locations both indoors and outdoors.

The Club recognises the importance of educating club members, particularly players, of the benefits of implementing a smoke free policy and will endeavor to provide information to assist this process.

7. POLICY REVIEW

This policy will be reviewed every two years to ensure that it remains relevant to Club operations and reflects both community expectations and legal requirements.

Approved: 2024
